### Needs & Expectations

- Wants a budgeting app to tie together with his husband's, so they can save jointly
- Expects the app to passively monitor his transactions and give saving suggestions
- Wants a business AND personal feature, tied to the same account

### Motivations for Budgeting

- Wants to save money for her future child
- Looking for new and smart ways of budgeting on the move
- Keeping track of business expenses

### Pain Points / Frustrations

- Uses multiple platforms to budget
- Hates having overlap between her personal finances and that of his privately-owned small business
- Annoyed at poorly designed UI

### Needs & Expectations

- Looking to manage savings on his phone primarily
- An app that can take multiple forms of income into account
- Some sort of incentive to using the app consistently with either cash or social points

### Motivations for Budgeting

- Wants to save up for his new house in the current market
- Looking to passively save without using traditional methods that are much more time consuming
- Help those around him by promoting a smart and healthy financially-stable lifestyle
